

The Roundtable on Ethnic Minority Concerns (REMC0)
Quarterly Report
Submitted April 19, 2002

The executive committee met on February 15, 2002 at Bladen County Public Library.

REMC0's NCLA program, Hats was evaluated.

The committee discussed ways to increase membership. There is a concern that REMC0 is a roundtable for African Americans only. We discussed ways of getting the message out that all NCLA members are welcome to join. Committee members are working to update the REMC0 brochure.

A letter was sent congratulating Morris Pridgen on being appointed Director of Columbus County Public Library.

The possibility of having an off conference year program was discussed. Potential program topics include evaluating resources and services for diverse communities, recruiting minorities into the profession, and collection development.
